#### **CAREER EXPERIENCE**

Senior Engineer : Automation Engineer / Python Developer

Denso Ten Philippines Corporation

10/2019 – 11/2024

#### SKILLS APPLIED:

- ☐ Solidworks 2021
- ☐ PLC : Keyence / Omron
- ☐ SCADA / DCS
- ☐ IIOT Web based
- ☐ HTML/CSS/JS

- ☐ Database : MySQL, Postgres, MongoDB
- ☐ API : Fast API
- Python: Django / Flask / Beautiful Soup / Tkinter / Pytest / Numpy / Pandas
- ☐ CI/CD : Jenkins / Github / Docker / AWS

#### **Duties & Responsibility**

- Support Denso Ten company wide excellent factory automation project
- Provide adequate training, technical and administrative guidance, and day-to-day instruction to the team.
- Responsible for researching and implementing new technology for industrial automation
- Design management including the production of concept designs, desing development and detailed desing.
- Collaborate with Denso Ten Global counter part, new model and process design preparation for mechanical and electrical
- train and mentor junior engineers and technicians ensuring best practices are followed.
- Ensure all SCADA systems comply with internal and external standards and cybersecurity protocols.
- Work closely with manufacturing, scheduling, procurement, engineering, and IT to align technology solutions with business goals
- Collaborate on the design and implementation of ERP+MES functionality to enhance manufacturing intelligence, operational efficiency, and process quality.
- Write clean, maintainable, and efficient OOP code in Python.
- Collaborate with front-end developers to integrate user-facing elements with server-side logic.
- Participate in all phases of the software development lifecycle, from planning and design to deployment and maintenance.

#### **PROJECTS:**

Automated	Conveyo	r Belt System	
Automated	Inventory	/ Management S	Sys

☐ Predictive Maintenance System with PLC Integration

☐ Production Scheduling and Optimization Tool

#### CAREER OBJECTIVE

As a highly skilled and innovative professional with expertise in Python development, design engineering, and industrial automation, I am seeking a challenging position that leverages my technical acumen and problem-solving abilities to drive efficiency and innovation in automated systems.

My goal is to contribute to a forward-thinking organization where I can apply my knowledge, skills and passion for technology to create impactful and sustainable advancements.

#### **EDUCATION BACKGROUND**

University of Perpetual Help System DALTA Brgy. Paciano Rizal National Highway, Calamba City, Laguna, Philippines 4027

> Bachelor of Science Electronics Engineering BSECE

#### SKILLS

- Design Engineering (Mech. / Elec.)
  - Solidworks 2D/3D 2020+
  - AutoCAD 2020+
  - Autodesk Inventor 2020+
  - SketchUp + Vray
- Industrial Automation
  - PLC (Keyence/Omron/Seimens)
  - SCADA / DCS / HMI
  - IIOT Python / Web based
- Front End Dev. : HTML / CSS / JavaScript
- Python Developer
  - Backend (Server-Logic)
  - Python : Django / Flask
  - Computing Libraries : NumPy, Pandas and Matplotlib
  - Database : MySQL / MongoDB
  - API : Fast API
  - · GUI: Tkinter
  - Embedded System : Raspberry Pi
  - Web Scraping : Beautiful Soup
  - IDE: PyCharm, VSCode

#### CAREER EXPERIENCE CONT...

Senior Supervisor : Business Development (SMT)

Mobilecycle Technologies Incorporated

03/2019 – 09/2019

#### **Duties & Responsibility**

- Spearhead to acquire and develop new businesses, design, develop. Building and qualify various needed products, projects, systems, machine and equipment for its internal needs and also to be offered directly to MTI's customers.
- Do sales calls and business development function together with the President/CEO.
- Engineering like various process engineering, line maintenance, facilities and NPI duties

Process Engineering 2 : Wirebond / Die attach
Tong Hsing Electronics Philippine Incorporated
09/2018 – 02/2019

#### **Duties & Responsibility**

- Develops and optimizes continuous production and mfg. yield and cycle time
- Handshake with previous shift Group Leader
- · Report Machine Status Per Shift
- Perform Evaluation on Raw Materials (Lead Frames, Bendability, Die shears, Wire pull)
- Lead all SPC operator and monitor daily activities and measurements
- Generation Report of Daily SPC Report (Out control Specs.)

Senior Design Engineer : Automation

Jan David Technoloies Incorporated
02/2017 – 09/2018

# SKILLS APPLIED: ☐ Solidworks 2016 ☐ Autodesk AutoCAD 2015 ☐ PLC : Keyence / Omron ☐ Sketch Pro + Vray ☐ IOT : Python / Raspberry Pie

### **Duties & Responsibility**

- Proposed design concept base on the customers request and requirements.
- Project Management: materials, parts and component, project time-line, delivery
- Present designs and perform demonstrations of product prototype for clients approval
- Evaluate the function, safety and appearance of products to ensure they have a practical design.
- Help establish new and maintain existing standards
- Work with sales engineers to provide input with quote preparation as required
- Support sales engineer to provide clear technical information for every project.
- Supervise fabrication personnel for every project design and concept needed

#### TRAINING / BOOTCAMP / WEBINARS

Modern Front-end Web Development - 2024
The Complete Web Development
Course - 2024
100 Days of Code The Complete
Python Pro Bootcamp for 2023
Python Testing with Pytest and
Selenium - 2022
DevOPs using Jenkins - 2022
Full Stack Web Developement with
React JS, Angular and Node JS - 2022
Developing Front-end application with
React - 2021
Introduction to Front-end Web - 2021
Back-end Web Development - 2021
Database structure and management
with My SQL - 2020
ma cadonom to molational Batabacco
(RDBMS) - 2020
The Python Mega Course Build 10
Real World Applications - 2020

#### **CAREER EXPERIENCE CONT...**

Manufacturing Engineering 2 : Automation Integrator

Testech Incorporated

05/2013 – 01/2017

CIZII	10	^ DD	LIED.	
SKIL	LD.	APP	LIED:	

□ Solidworks 2012+ □ Autodesk AutoCAD 2015

☐ Autodesk Inventor 2016 ☐ PLC : Siemens / Omron

☐ Sketch Pro + Vray

#### **Duties & Responsibility**

- Spearhead to acquire and develop new businesses, design, Support Business Unit Development Operation
- Evaluate and improve on processes in manufacturing systems.
- Develop innovation solution / Automation System Improvement
- Improve process capability and production volume while maintaining and improving quality standards.
- Conduct time study of processes and Collect, record, and transcribe data.
- Develop and implement systems that optimize all phases of production process

Asst. Production Supervisor : Car Carpet Molding
Form Asia Incorporated

06/2010 - 10/2012

#### SKILLS APPLIED:

☐ Autodesk AutoCAD 2016

☐ SolidWorks 2010

#### **Duties & Responsibility**

- Creates and revised production drawings (details, dimensions and assembly drawings).
- Makes final sketch of proposed drawing, checking dimension of parts, materials to used, relation of one part to another, and relation of various parts to whole structure or project.
- Updates drafting and engineering standards.
- Converts existing production drawings to library catalogue.
- Communicates with tooling, QA, engineering and manufacturing regarding new and revised drawing.
- Conduct Water-Air Convective Simulation Cooling Test
- Conduct Daily Update Drawing Catalogue
